

2000 – 2004.

This was written after the Thursday before Christmas as Marian and Doug were leaving us.

*T'was, the Thursday before Christmas when all around the scene.
Not a runner was stirring
Not even a Stubbington Green.
The route was ready, prepared with care,
In hopes a GRR would soon be there.
The clock ticked over, start time was nigh then all of a sudden, as if from the sky.
Runners appeared one, two, three,
The coach stopped praying and arose from his knee.
Tonight is special he was heard to say, a new run not used before this day.
What was that, a voice from the back, not another ten miler there and back.
Tonight he said shrugging it off, are you sure ten miles will be enough.
Seriously though, we have an invite to partake of fare the Christmas type.
From here we head north up the Fareham road arriving at Marion and Dougs abode.
The night was stormy, rain in the air, its tracksters, he's hats and gloves I fear.
But with a good heart and spirits high off we go with hardly a sigh.
Our hosts are there, with smiles on their faces in spite of the fact there are loads of
sweaty faces.
Come on in, have a beer, grab a seat, there's eats over there.
Its good to see you both again without you Thursdays not the same.
Alas our visits all to short some times were martyrs to this sport.
A nice warm house, a comfy chair congenial hosts it doesn't seem fair.
We thank you both your great to know come on runners time to go.*

*Our thanks to Marion and Doug for their hospitality.
My apologies to Dr Clement C. Moore.*

THINGS TO COME!

Flicking through the channels (I only have four) on Saturday in a vain hope that the Radio Times was in error and "The Virginian" had not been replaced by TOTP 2 and What The Papers Say, I came across a startling revelation. All these years I have been taken in by the big "CON" perpetrated by John Readings and his predecessors, although I will give them the benefit of the doubt as they have probably been taken in much the same way as I was. Who was it who said if you are going to tell a lie make it a big one (Bill Clinton?) and this one is a whopper which has stood the test of time as well.

It would appear according to that great double act Coleman and Foster that we have been getting it all wrong. As I was saying I was flicking through the channels when I happened upon The Great North Cross Country Championships (beautiful view of the cathedral) in Durham. I should explain that I am not usually allowed to have the television on in the afternoon as I am supposed to be catching up on all those jobs I promised to do when I retired, but as her indoors was of depleting my hard earned pension in Fareham and I knew what time she was coming back as I was under strict orders to meet her at the bus stop and help her carry home Sainsbury's profit margin for the week there was still time to turn the box off and let it cool down. She usually feels the back whilst going through the motion of adjusting the curtains.

But I have been around long to be caught out on that one. Still ! I digress. X – Country it would seem is about going out religiously in snow, sleet, gale force winds, temperatures below zero etc, over what would appear to be over unmeasured courses any distances between five and ten miles that has been used for putting tanks through their paces. Through rivers of mud, torrential torrents of water, steep, soft sand hills, over mountainous rocks, getting over huge fallen trees it would be quicker to tunnel under, nettles that would bring down an elephant, insects that break all the laws of nature by emerging in the middle of winter for a quick bite to keep them going through the cold months ahead. Did I mention the ice pools that crack when you are half way across, plunging you up to your waist or if you are vertically challenged up to your neck in freezing, smelly water, plus other toments to hideous to mention.

Well it looks like these soft wimpish runs are over. We all know that today's television is tomorrows reality, so with that in mind this is what the future holds.

First you need a green field site in a scenic area measured accurately so as you can do 9k in eight laps with a few metres tacked on the end. It must have a gentle slope up and down in the middle of the course or as David and Brendan put it a sharp pain inducing incline. The going will be quite soft as there will be a few races on the day and the perspiration from the previous runners will dampen the course quite a bit. Ladies you will have the best of it as it seems segregation is practised and you go first with 6.5k. Do we have a case for sexual discrimination? Think that's tough , you 'aint heard nothing yet. The course is surrounded by a hazardous green plastic fence which also doubles as a barrier to keep the spectators at bay.

Best not to go on as I do not wish to deter any new members from participating in this Sunday morning pleasure, especially as I know that the die hard X/Country runners have been spreading the gospel lately in an attempt to attract even more converts.

It would seem they are unaware of the drastic changes in the set up.

Having taken all this into account (I hope I am not treading on your toes John) may I suggest that if we are called upon to provide a venue in Today's Runner League we need go no further than our very own Privett Park, the distance is about right and instead of the sharp incline maybe we could use the children's play area on the eastern side up and over the slide or some other terrifying obstacle we can also provide the added hazard of the president of the cricket club swearing at the runners as they go round with the added thrill of ducking the cricket ball.

Yours soaking wet, freezing, covered in mud, knackered, one shoe missing, carrying numerous injuries.

X/C Runner.

27921st Richard Wiltshire 5:25:42 (Running for his mum Brenda Wiltshire)

They were all running their first marathon.

18.4.2004.

The founder of Gosport's premier road race will be remembered with a fitting tribute when friends pound the pavements in her name.

Brenda Wiltshire died this year following an 18 month battle against cancer.

The mother of two was an enthusiastic member of Gosport Road Runners and a founder of the club's annual half marathon competition.

Now as the race celebrates being made county championship event of the year, the club has dedicated it to the memory of one of their bubbliest members.

Mrs Wiltshire, 54, began running with the club in 1984, spurred on by her husband John, 56. He said keep fit was never his wife's strong point but she enjoyed the companionship and the escapism of running.

It wasn't long before she was competing along side her husband in marathons in Berlin and London.

In 1985, Mrs Wiltshire, a learning support assistant at Bridgemary Community School, and fellow runner Sue Andrews organised the first Gosport Half Marathon.

Brenda never really showed much aptitude for sport, said Mr Wiltshire. But she was a great and did everything from the accounts to catering for the half marathon.

It came as a bolt from the blue when Mrs Wiltshire was diagnosed with cervical cancer in 2002.

She underwent chemotherapy and radiotherapy but died on April 18 this year the day her son Richard, 27 ran the London Marathon in aid of the Macmillan Cancer Relief charity.

Friend Gerry Buzzard said she believed Mrs Wiltshire would have been secretly 'chuffed' the half marathon was now being run in her memory.

She would probably have giggled about it and wonder what all the fuss was about.

People will remember her for her bubbly personality. Brenda was an inspiration to every one in the club. She was so brave and positive right until the end.

This year, Hampshire Athletic Association has appointed the Gosport Half Marathon which takes place on November 21st as its main event, with the winner to be crowned county champion.

Organisers have paid their respects to Mrs Wiltshire in the race programme and more than 1000 competitors are expected to take part.

8.5.2004. Keswick2Barrow 40 Miles .

1st Iain Robert 4:47:00. Finishers 941.

In 1966 John F Kennedy said that every American should be capable of walking 50 miles a day. This sparked off a rather unusual challenge between American nuclear experts assisting Vickers shipyard in the building of the first Polaris submarine

HMS Resolution and her sailors.

The crew of the Resolution won the first contest in 1967 in the face of severe competition. In later years the start was moved from the centre of Keswick to its outskirts due to problems with traffic. The challenge is approximately 40 miles in length however the organisers insist it is 42 miles (what's two miles between friends). The challenge is based upon a team of 10 and the winning team is decided upon the time elapsed of the last man home. This is a very big fund raising event in the Lake District, this year 941 runners took part and the organisers are hoping to pull in over £60K.
